

Macraes Workforce Accommodation

The Farm Cottage at Havrincourt Farm provides comfortable, fully self-contained workforce accommodation for contractors, project staff and others working in the Macraes area.

Located just 12 km, or approximately 14 minutes, from the Macraes Top Office, the cottage offers a quiet rural base away from the worksite and is particularly well suited to both day and night-shift workers.

The cottage has three bedrooms and accommodates 1-4 guests on an exclusive-use basis, so your team has the entire property to themselves. It includes a full kitchen, comfortable living area, bathroom, laundry facilities, Wi-Fi and good mobile phone coverage.

Guests can prepare their own meals and enjoy the space and independence of a complete home rather than individual motel-style rooms. The peaceful farm setting also provides a comfortable place to rest between shifts.

Short, weekly and longer-term workforce stays are available, with reduced rates for longer bookings. For stays of more than one week, a weekly full clean and linen change is included.

Havrincourt Farm is locally owned and operated, and we welcome enquiries from companies needing practical, reliable accommodation for staff working at Macraes and throughout the surrounding East Otago area.
